PROFILE

- An Artificial Intelligence and Cybersecurity student with a solid technical foundation in Software Testing, Quality Assurance, and Network Security.
- Completed specialized training in Network Security at the National Telecommunication Institute (NTI), with hands-on proficiency in network administration, Fortinet, and FortiGate firewall configurations.
- Gained comprehensive hands-on experience through the Digital Egypt Pioneers Initiative (DEPI), mastering manual test case design, execution, bug tracking, and Linux-based environments.
- Strong analytical problem-solver skilled in requirement analysis and system validation, actively seeking opportunities in Software Testing or Cybersecurity to contribute to robust, secure software solutions.

EDUCATION

- Bachelor of Artificial Intelligence (Cyber Security) 2024 – 2028
- Menoufia University | GPA: 3.06 / 4.00 (Vg)

COURSES

Software Development & Testing — Digital Egypt Pioneers Initiative (DEPI) November 2025 to July 2026

- Graduate : Successfully completed an intensive training track covering end-to-end Software Testing, Quality Assurance methodologies, and Java programming.
- Quality Assurance & Testing: Mastered manual testing practices including comprehensive test case design, execution, smoke/regression testing, and defect life cycle tracking with clear severity and priority levels.
- Software Development: Solved complex algorithmic problems and developed logic-based applications using Java.
- Practical Achievements: Executed 40+ manual test cases improving test coverage by 25%, identified and reported 30+ validated defects, and verified 10+ full user workflows reducing functional issues by 20%.
- Professional Readiness: Completed 50+ hours of professional soft skills, career coaching, freelancing strategies, and business ethics.

Network Security & Administration — National Telecommunication Institute (NTI)

- Graduate / Completed Training: Successfully graduated from the Network Security program with intensive hands-on labs on secure network architectures.
- Fortinet & FortiGate: Configured and managed FortiGate Next-Generation Firewalls (NGFW), including firewall security policies, NAT, SSL inspection, IPS rules, and secure remote access (SSL VPN).
- Network Fundamentals: Applied routing, switching, packet analysis, network segmentation, and defense-in-depth strategies to secure enterprise infrastructure.

Generative AI — CIB Summer Internship Program | Commercial International Bank (CIB)

- Completed Training (August 2026): Successfully completed intensive training covering core principles, modern approaches, and industry best practices in Generative AI.
- Practical Understanding: Explored practical applications of generative AI frameworks, prompt engineering, and intelligent system workflows within enterprise environments.

Red Teaming & Advanced Linux for Penetration Testers — Udemy

- Ongoing Coursework (In Progress): Actively training on offensive security methodologies, adversary emulation, and Red Teaming operations.
- Linux & Automation: Gained practical skills in Kali Linux environments, essential penetration testing command-line tools, and Bash scripting for task automation and enumeration workflows.

SKILLS

- **Software Testing & QA:** Manual Testing, Exploratory Testing, Functional & Regression Testing, Test Case Design & Execution, Bug Tracking & Reporting, Defect Life Cycle.
- **API & Automation Testing:** API Testing, Postman (Collections, Environments & Scripts), Selenium WebDriver, Automation Testing.
- **Network & Cyber Security:** Network Security, Fortinet FortiOS, FortiGate Next-Generation Firewalls (NGFW), Firewall Policies, NAT, SSL/SSH Decryption & Inspection, IPS, SSL VPN, Network Segmentation.
- **Offensive Security & Systems:** Red Teaming Fundamentals, Penetration Testing Concepts, Kali Linux, Linux Command Line, Bash Scripting.
- **Programming & Databases:** Java, Python, C++, SQL, Git / GitHub.
- **Soft Skills:** Analytical Thinking, Attention to Detail, Problem Solving, Communication, Teamwork, Time Management, Adaptability.

LANGUAGES

- **Arabic – Native Language**
- **English – (Reading & Writing) Excellent**
| (Listening & Speaking) Very Good
